6. Winter maintenance of untreated roads

We have been contacted by Clearways offering to maintain our untreated roads whilst they are in the village treating the roads on behalf of ERYC. This was discussed and at present we still have salt and a working spreader, so would not be beneficial at the present. It was pointed out by GC and LP who usually complete the gritting of the west end of the village that in the last two – three years they have only been out once or twice. It was decided by all to keep the number on record for the future in case we are to look at employing a company to complete this task.
